PREDICTION

(Continued from First Page)

Barinov's party and ten

representatives of the Comintern or

some of these men have

come to the United States

to make a close study

of methods in various Ameri-

can fields. Mr. Barinov arrived

in New York last May, when

he and Mr. Tschamroff,

several associates came in

to Los Angeles, stepping on

the automobile, stopping on

Stiles and other oil centers.

BILL OF \$16,000,000

Their machinery purchases in

aggregated about \$10,000

Barinov stated. They plan

to have for San Francisco by

this week and the party to

attend the national oil ex-

hibition there in October. Their

show will have an exhibi-

tion which will exhibit its tur-

boring method.

In Mr. Barinov's party are

Prof. V. A. Soloviev, mining

engineer; Prof. I. L. Tifern, chief technical

adviser; Dr. Abramovitch, chief geolo-

gist; M. Schachman, chief geolo-

gical engineer; Mr. Chamroff, a

chemical refinery engineer.

Mr. Barinov in visioning an

oil trade between Southern

Russia and his country, said:

PRODUCTION TOLD

"The oil industry in the Unite-

d Socialist Soviet Republics Grea-

tly increased its production in

the period of the World War

and very much retarded in its de-

velopment. Previous to the war

it was owned and操

led by 272 private companies

individuals, but after the war all

of fields and refineries came un-

der government control.

The first of these is the A

in the Kuban region, in the

on the Caspian Sea, So-

western Russia. The second is

the Gremy region

the third is the Embetom

in the northern part of the Caucasus.

The fourth is the Orenburg region

the fifth is the Urals region

the sixth is the Mountain.

There are several

smaller trusts in other localities.

The methods of production

being in those days were far

from the American methods.

After the beginning of the

the beginning of 1923 the go-

ernment started to purchase on

the American market machinery

for industry and also began to

to this country its engineers

mechanics to thoroughly study

operation of American methods

of production, drilling and re-

RECOMES CUSTOMER

After this survey the Russian

market began to buy in this

by equipment for drilling, pro-

cessing and refining oil and

machinery for machine shops,

and technical laboratories.

During this year totaling

\$10 million dollars.

At the present time we are

producing a quantity of oil

In instance we just have

contracts and purchase for o-

il and installation of crac-

and pipe-sticks to refine

in the future we will maintain

our business relations with

the United States. For this purpose

we invited American engi-

neers and drillers to accompany us

to the U.S.R. to instruct

workers in how to use Ameri-

can methods.

We are currently in Ameri-

can methods.

We have engaged on

several contracts. Prof. John

McGill of Pittsburgh, and

Brockstrom, dean and prof-

essor of the University of

and Colorado universi-

ties. Prof. Brockstrom is in

the U.S.R. in October. We

have engaged on a year's con-

Mr. Poor of Seminole, Okla.,

a plant engineer, to operate

two plants, also two drilling

Mills of Oklahoma and Texas.

A. Trox and six driller

are practical American driller

APPLAUDS COURTESY

Mr. Barinov was deeply im-

pressioned by the courtesy

and engineers and others from

country who, he said, have

met with utmost consider-

the speak English. He

is kindly treatment to Ameri-

engineers and other scientists

the surveys in Russia.

He complimented the methods

shown in the oil field

California that he

seen. Detailed information

the Russian oil fields is in

hands of the American Com-

West, he said.

Many motion pictures of oil

fields in this country have

been taken by American film

men and have been used

manufacturers in promoting to

the public.

Autoists Badly

Injure Two Boys

Struck by an automobile No.

Walker, 5 years of age of 801

avenue, yesterday received

wounds of both legs and minor

injuries to head and body. The

front of an auto

driven by Mr. W. E. Fries, 36,

South street at Glendale

Glendale street, the motorist re-

ceded. He carried the injured to

H. R. Fries, 6, of 197

Minerva street, yesterday

struck by an auto at 197

South street and Avlon

He received possible internal

injuries and a broken right arm.

He was driven by D. W. Mc-

Norris, Auto Sales, Georgia

Street, Receiving Hospital.

The boy was transferred to Ge-

**RUSSIAN TRADE KNOCKS AT DOOR**  
Representatives Here Tell Possibilities  
Russian Buys Machinery for Oil Fields  
Russian Methods Praised; Equipment Adopted

(Continued from First Page)  
the party and ten representatives of the Gremiorg organization of men having experience in the United States were making a close study in various American cities. Mr. Barinov arrived in Los Angeles in May with some of his staff and Mr. Tchernoff and associates came in July. They have been here to Los Angeles from the East Coast, stopping en route to oil and other oil centers.

**SELL OF \$10,000,000**  
The machinery purchases in the United States amounted about \$10,000,000, it was stated. They plan to return to San Francisco by the end of the week and then go to Tulsa and the national oil exposition in October. The Russians will have an exhibit at the exposition and the Amsett organization will exhibit its turbines using method.

The members of the party are P. B. Barinov, chief technical engineer; I. A. Golovin, chief engineer of oil fields and drilling; Prof. M. V. Charnoff, chief geologist; and Charnoff, chief engineer of gas and gasoline plants. Among Mr. Charnoff are a geologist, surveyor, engineer, and oil drilling engineer.

In addition to visiting an industrial center between Southern California and his country, said:

**PRODUCTION TOLD**  
The oil industry in the Union of Soviet Socialist Republics (Russia) at the end of the World War was much retarded in its technical development. Previous to the war Russia's oil output was around 200,000 barrels per day, but after the war all the wells and refineries came under control of the Amsett.

The first of these is the Amsett in the Black region, in the Caucasus, and the second is in the Donets.

The third is in the Grozny region, the fourth part of the Caucasus, and fifth is in the Embatash on the Caspian Sea, in the extreme north of the Caspian region and the sixth part of the Ural mountains. There are several wells in other localities.

The methods of production and refining in these days were far behind American methods and in January of 1923 the government sent a commission to America to buy machinery for the industry and also began to send its country's engineers and scientists to thoroughly study the value of American methods of production, drilling and refining.

**BECOME CUSTOMERS**  
Now the Russian government began to buy in this country equipment for drilling, pumping and refining and also machines for machine shops, foundries and metal laboratories. At the end of last year, the Amsett bought the first year totaling several million dollars.

In the present time we are buying a large quantity of equipment which we just have started to use and are sending delivery and installation of cracking units and pipe-stills to refine oil. In the future we will maintain business and technical relations with the new methods that are used in the oil industry in the United States. For this purpose we invited American engineers and others to accompany us back to the U.S.A., to instruct our men how to use American methods and machinery and equipment in American methods. At the present time we have contracts, Prof. Johnson, a man of Pittsburgh, and Prof. Beckstrom, dean and professor of the University of Colorado and professor of the University of Oklahoma, already in Baku and Prof. Beckstrom is leaving for U.S.A. in October. We also expect on our year's contract for Seminole, Okla., a gas plant engineer, also two drilling engineers, Mr. Lester and Mr. Davis of Oklahoma and from California, A. Tracy and six drillers. All practical American drillers.

**APPRECIATES COURTESY**

Mr. Barinov expressed deep appreciation for the courtesy shown him by the American engineers and others from his country who, he said, have been received with utmost consideration and courtesy by many of them to date. He bespeaks similar friendly treatment for American engineers and other Americans making their services in Russia. He highly commended the methods and especially shown in the oil fields of California that he has seen. Detailed information as to the methods of finding oil in the fields of the Amsett Company, whose headquarters are in New York, is said.

Many motion pictures of oil-field operations in this country have been shown by the Tiflers to be shown in Russia, and he heartily recommends this method to American manufacturers in promoting foreign trade.

**Autoists Badly Injure Two Boys**

Greatly by an automobile Norman E. Fierman, 9 years of age, of Euclid Avenue, yesterday received fractures of both legs and minor injuries to hand and body. The boy was in front of an automobile which had driven into 20th Street and Euclid Avenue and Euclid Street, the motorist reported. He carried the injured boy to Euclid Hospital. Dr. E. Fierman, 6, of 707 East Main Street, yesterday was struck by an automobile at Main Street and Avalon Boulevard. He received possible internal injuries and a broken right arm. The car driven by D. W. Mills of 100 South Aliso Street, police reported. After being treated at Euclid Hospital, the boy was transferred to General Hospital.

**Announcements tonight and tomorrow**

we are making preparations and will present values that interest to every one in Southern California.

**Going to be important...**

—Abraham Lincoln.

## Today's Bible Text

"For though I be absent in the flesh, yet am I with you in the spirit, joying and beholding your order, and the steadfastness of your faith in Christ." Colossians 2:5.

## WHO IS WHO?

World disarmament is one thing, but how about the strife over social precedence and table places at Washington? Here is a war in which neither soldiers nor diplomats can get in their work.

## AT THE BRIDGE

An Illinois Judge refused to give alimony to a wife who admitted that she spent all her afternoons playing bridge. He argued that she could support herself during that time and if she played for money she should have enough to keep her lipstick alive.

## THE LONG JOURNEY

From Tokyo to San Francisco in sixty-eight hours is a journey that could not even be dreamt of in any age but this. More than 6000 miles of deep and threatening water lie between the two cities and that the distance can be spanned by a shiny ship of metal speeding through the skies completes the miracle.

## FLYING SMUGGLERS

Now it appears that carrier pigeons have been used in the narcotic traffic. The idea may not go very far, but a fat pigeon would be able to slide through the skies with a hundred dollars' worth of morphine without making much of a target for the hunter. Nevertheless, pigeon shooting at the border may develop into a popular sport with the customs guards.

## PAYING THE PRICE

In order to clear up all water rights Los Angeles is about to buy five entire towns in the Owens River Valley—lock, stock and barrel. This seems to be a better plan than carrying a perpetual feud with a lot of rite persons forever making faces over the back fence. We wish to be at peace with our neighbors, even when distance and conditions make them rather unneighborly. If we buy their property at a good price there should be few grievances left for them to air.

## UNIONS IN MEXICO

The union bartenders in Mexico are becoming selfish. They want it fixed so that not more than one bartender in five in a Mexican saloon may be an American. They do not want our cocktail artists deplored across the border to put their own talent out of jobs. It is true that American bartenders draw American business, but the Mexican labor bosses intend to have their own boys horn in on the finish. But at that, being a bartender in a Mexican saloon is not exactly the job we would select for an American youth.

## TITLE OLD NEW YORK

According to reports of the new police commissioners crime in New York is falling off mightily. There has been a slump of 70 per cent in burglaries and the murders have been pulled down to a paltry average of one a day. Even the night clubs and speakeasies are being pruned and the old town is being right virtuous. Provincialists who crave naughtiness may have to trek to Boston to find their wild life. There is little left in Gotham save the Broadway theaters to give the town its garbage flavor. Even some of them are on the verge of reform.

## THE WILL TO WAR

In a world pledged to peace and amity it does still appear that the labor unions have no idea of making progress save through paths of threat and intimidation. They do not so much strive to extend their lines and the membership by logical reasoning or friendly sniping as through strikes, picketing, bombing and other forms of violence. They certainly could not hope or expect that all the workers in America could be brought into the union ranks yet they would be ready to start a war tomorrow with that purpose in view if the leaders could all gain the glory and emoluments of a general. There is something in the make-up of a labor boss that permits him to think only in terms of strife. He has the will to war at the expense of the underlings.

**THE BELL CEMENT PLAN**  
When the City Planning Commission resumption hearings next Tuesday on the plan of Alphonso Bell and his associates to locate huge, noisy and dusty units of the cement industry in one of Southern California's finest residence areas it should make every effort to speed the matter to an early conclusion. The hearing has already dragged on too long.

There will be no effort here to go into details as to the evidence. To do so would prove as tedious as the hearings on Bell's behalf. There is in the record that he owns a lime deposit and a shale or clay deposit, suitable for making a good grade of Portland cement. There is nothing in this that is startling; such deposits are common all over California. On the other hand there is in the record evidence that Bell has morally abandoned his right to work these deposits by developing high-grade residence subdivisions in the immediate vicinity, all carefully restricted against any kind of industry, and that there are other residence developments of similar character close by which would be injuriously affected if their value was not destroyed.

It is asserted by Bell that his plant will not constitute a nuisance. He has sought to lay before the commission a picture of a cement plant, or part of a cement plant, at which blasting will make no noise and will not shake the earth, where rocks may be ground to impalpable powder without filling the air with dust, and from which this product, mixed with water which the city cannot spare, can be transported half a mile to sea through an unbreakable pipe line which cannot possibly clog and then re-cleaved into barges as ornamental as those of Caligula. These barges, his lawyers unblinking aver, will infallibly transport slurry to the cement factory without slopping any of the contents into the water in which hundreds of thousands like to swim. All this it is hinted, can be done at a cost that will cut the gizzard out of the prices of the cement trust to which some of Bell's associates belong. And yet there are "millionaires."

The opponents have demonstrated the impossibility of such claims. They point out that, in addition to the residence developments of Bell and others, near neighbors of this berried and perfumed projected factory are the University of California, at Los Angeles, the new site of Occidental College, the California Botanic Garden, the city of Santa Monica, which has all heavy industries and the city of Beverly Hills with its fine and world-famed estates.

There is no doubt that the mere application of Bell for a permit to conduct these cement-making operations has cut the ground from the real estate market in that part of town, has prevented building and the consequent employment of labor and has stirred up ill feeling between neighbors who before were peaceful and harmonious. There is no doubt that further questions have been injected into the propriety of the request by the conflicting testimony of the proponents themselves—such as the statement by Bell that nothing bigger than a 5000-barrel mill is to be constructed and that of an associate who said the daily output will be 20,000 barrels.

The City Planning Commission should close the hearing and deny the permit. Bell would have to make an overwhelming affirmative showing before its issuance could be justified and this, certainly, has not been made. The presumption is always against industrial zoning in a residence district.

**UNCLE SAM'S WIFE**

An ultra feminist is said to be demanding why the newspapers never mention Uncle Sam's wife.

We have not been commissioned to look after Uncle Sam's private affairs and do not know that he needs our help. But the possibility is that he does not have a wife. As far as our files go, he seems to be an old bachelor.

Doubtless those who make it their business to look after such matters could find him a wife. Possibly those greatly interested and who are peevish about it could function themselves. It may even be that he needs a wife at times.

With the advent of woman in politics, the feminine touch at times seems necessary. But there is no indication that the grand old figure in our national life can be stamped into doing anything rash.

If he should marry, about the first installment he would get would be to have his paint brush amputated. The next morning he would find his old-fashioned tail hat stuffed into the charities bag. His coat would be sent to the cleaners and his breeches would no longer hook under his heels. A woman would make him over and we would lose our idol. He would soon lack the carefree air of a successful horse trader and would have to appear around the house as the latest model automobile salesman. This might improve the boujou, but would it help the outdoor scenery?

We want Uncle Sam as he is.

## THE BAUMES LAW

The Baumes law appears to be a bitter pill for habitual criminals. They staged two riots in the New York State penitentiaries and Gov. Roosevelt ascribes them to the effectiveness of the law.

Habitual criminals are finding out that their practices are not prized by society. The statutes were not passed as a bit of pessantry. The protection of home and family appears to have been first in the minds of the legislators.

If it were not pathetic, a strike in prison would be humorous. The troubles in Leavenworth were said to be caused by overcrowding. And word comes that President Hoover will recommend to Congress an appropriation of \$5,000,000 for a new prison at Washington and for the enlargement of Leavenworth and Atlanta.

The prisoners seem to have overlooked one of the most effective methods of reducing the number of inmates in a cell. They could stop their killing and thieving and not have to go to the trouble of flaring up against the guards. The country will likely continue to be its own judge of how many to inclose in one cage.

Now Uncle Sam conducting his prisons for his health. Nor are taxpayers especially fond of paying the board

## LEE SIDE O' LA

BY Lee Shippey

**PROBABLY** no other city ever contained as many actors as Los Angeles does. Besides all those engaged in stage productions—they say this city is second only to New York in original stage productions, the most notable in recent years having been "Abe's Irish Rose"—and all the vaudeville—people who receive more than \$15 a day, there are 11,000 "extras" listed by the Central Casting Corporation, the organization which for nearly four years has booked the extras for all the motion-picture producing companies.

**Just Like Ordering Groceries**

In the early days of the motion-picture industry every studio had its casting directors and those who sought jobs as extras trudged from studio to studio seeking work. The studios still have casting directors, but now they merely keep in touch with the directors and send in their orders to Central Casting for what they want. The orders come in something like this: One French gendarme, in uniform; 100 English girls, Latin type; fifty women over 80 years old, French types; four English Tommies in uniform; 100 American boys in uniform. On location at 9 a.m.

**Central Casting**

About eleven years ago two or three booking offices grew up, which undertook to supply extras to whatever studio called for them. The most important of those agencies was operated by Dave Allen and four years ago the producing companies decided to combine in support of one agency with Allen at the head of it. That is Central Casting as it exists now and the change has been of great benefit not only to the companies but to the extras. No extra is preyed upon by Central Casting and working hours, working conditions and pay have been bettered.

Instead of trudging from studio to studio, extras now call up Central Casting by telephone, once they are registered and become known there. The main office is at Hollywood Boulevard and Western avenue and the downtown office is in the Veterans' Employment Bureau on Temple street, as many ex-service men are employed asid as that is also handy to Chinatown, Sonora, Little Nippon, Little Russia and other foreign quarters, in case crowd scenes requiring such extras are wanted. In such cases the contact man goes out with an interpreter and each extra is given a slip printed in his own language telling him where and when to report.

**Chances Not Too Good**

Extras used to have to pay the agencies fees. Now they can register with Central Casting without charge, and as soon as they are ordered to report to a studio Central Casting makes out a pay voucher which is sent to that studio. The extras have an eight-hour day now and their pay begins at the time they are ordered and end of the vicious. It is a means of protection, not a mere compliment.

The food also seems to have had something to do with the bloodshed and attempted breaks. Again it may be said that the State is not conducting a first-class hostelry for the thugs and racketeers. There seems to be no intent to make matters pleasant for the inmates.

While not wishing to be inhospitable in the least toward the undesirables of society, yet the country is not attempting to run special resorts for them.

Because habitual criminals are bitter against the Baumes law is not cause for its repeal. It is additional reason for enforcing it more carefully than ever. Its unpopularity is its best argument. We are not likely to consult criminals concerning laws.

**A MEMORIAL TO MURPHY**

A design has been approved by the city art commission of New York for a tall flagpole with "bronze treatment" at its base, to be raised in Union Square in memory of the late Charles F. Murphy, Tammany chieftain.

With becoming taste, though with implied animadversion, the members of the commission state that their only business in connection with the matter was to approve the designs, but that this does not mean that they approve the motives of those who suggested the idea of the memorial. This left a good chance for an "out" should they be criticised by anybody.

Though they have not been criticised by the press, the persons who would like to see the flagstaff erected are coming in for no end of censure. The ire of the New York Times has been aroused to this extent:

Plans for a memorial to Charles F. Murphy in renovated Union Square, check by jowl with statues of Washington, Lafayette and Lincoln, have come as an unpleasant surprise to many. But if Murphy was not a man whom the city delighted to honor, he was one to whose arbitrary and vulgar and mercenary rule it meekly submitted for many years.

And the ire is accompanied by irony. The Times suggests that instead of a "bronze treatment" of the base of the memorial, brass would be more suitable. This sentiment will be received with many eyes.

Now Uncle Sam conducting his prisons for his health. Nor are taxpayers especially fond of paying the board

to report to the studio. They get overtime for extra hours. And they are paid daily as they quit work. They receive from \$5 to \$15 a day and last year Central Casting paid them \$2,469,000, an average of \$9.94 a day for those that worked.

But of the 11,000 only 133 men and eighty-seven women worked an average of more than two days a week. Of those, ninety-three men worked two and one-half days, forty-three worked three days, thirty-three worked three and one-half days, eleven worked four days, one worked four and one-half days and one worked five days a week. Of the eighty-seven women, thirty-six averaged two and one-half days, fifteen averaged three and one-half days, three averaged four days, two averaged four and one-half days and one averaged five days. Clearly, a good many of the 11,000 get very slender pickings and the girl from Kokomo had best think twice before joining this army. Last year an average of 756 extras a day got work.

**Mr. Destiny**

Dave Allen says "I done" and wears the sportiest sport pants we ever seen," but he is the god of destiny for the extras. When one of the 11,000 calls up the phone girl calls him a m—e and Allen sees him as clearly as if he were there. With his four assistant directors grouped close to him, so that each can hear every name and with notes before them of what the studio casting directors want them to get, Allen's switchboard gets 400 calls an hour during the evening. Most of the hopeful phoners get the reply, "Nothing yet." But whenever the name called makes anyone of that group of five vision an extra needs for the order he is filling the name is jotted down and either told extra is employed at once or told to call again in an hour or two. For Allen and his assistants know their extras so amazingly that they rarely have to look up one of the thousands of indexed photographs.

**As to "Stepping Out"**

"We got thousands of extras, some fashion plates some beauties, that can't ever be anything but extras," Allen says. "On the other hand, as soon as some folks step into this room we see they've got real personality; stuff that means something in pictures, and as soon as we send them to a studio lot it's noticed there, too. But most of 'em can't see anything to it but favoritism and crookedness; when we employ some one else and don't employ them. We take 800 out of 11,000 and the other 10,200 feet outraged. Sometimes the poor devils are hungry, too. We're sorry, but there just ain't jobs enough. Sometimes they try robbery. We send the money back, along with their registration card. They're out. And some girls who have read the New York magazine stories about Hollywood try to vamp us. They make us sickies of all. My gosh, how could any man step out with 6000 of 'em, anyway?"

and bed of the vicious. It is a means of protection, not a mere compliment.

The food also seems to have had something to do with the bloodshed and attempted breaks. Again it may be said that the State is not conducting a first-class hostelry for the thugs and racketeers. There seems to be no intent to make matters pleasant for the inmates.

While not wishing to be inhospitable in the least toward the undesirables of society, yet the country is not attempting to run special resorts for them.

Because habitual criminals are bitter against the Baumes law is not cause for its repeal. It is additional reason for enforcing it more carefully than ever. Its unpopularity is its best argument. We are not likely to consult criminals concerning laws.

**THE NEW SECRETARY**

The executive secretary of the Republican National Committee is to be former Congressman Dawson of Iowa. He is a Davenport banker and began his political career as secretary for Senator William R. Allison, when that gum-shoe statesman was a power in the land. Dawson is also a former comrade and associate of Secretary Good of the War Department and is in sweet harmony with the administration. He has the Hoover endorsement, which is enough for the occasion.

**DEPARTED FRIENDS**

By James J. Montague  
The iron deer, the iron deer.  
That stood around the banker's yard  
And always wore a subtle sneer  
As he serenely stood on guard,  
His spreading antlers arched and curved.

His forehead furrowed in a frown  
As if his master's presence served  
To mark the Crossroads of the town.  
I many and many a lingering year  
I have not seen an iron deer.

The wooden Indian, where is he?  
He stood forth in the days of old  
So that all powers—by night or day  
When good friends' sights were sold.  
Alas! I blush to own the truth.

Though time the conscience strangely blunts,  
For in my early wayward youth  
I stole a wooden Indian once,  
But now his earthly days are done.  
I cannot steal another one!

The barber pole, the barber pole,  
All spiraled round with red and white,  
It used to fill my boyish soul  
With admiration and delight.

It stood majestically out there  
The village main street to adorn  
And had my infant tresses shorn.  
But time remorselessly moves on—  
The tresses and the pole are gone.

(Copyright, 1928, by

In the bright lexicon of our youth there was no such word as "spiffle."

The three words most effectively used by man to preserve peace are "Yes, my dear."

There's always a bright side to turn over, but they're easier to hit off.

Maybe that train was named the Senator because it blows harder when it's got a full load.

What we need is a windmill that will magnify. A cow is as simple as a chicken, but most tortoises run over very few of them.

Once man traveled far in search of adventure. Now he content to make a little well water in.

Honesty is the quality that prompts you to confess you never before heard of the great man the President appoints.

Americans: Old dad laying bricks at \$12 a day and saving money to educate the boy so he can hold a white-collar job at \$75 a month.

All the world loves a lover and the fellow who has a summer cottage with spare bedrooms.

It must be a great disappointment to a Mosquito who has drilled a bald head and comes hardpan so near the surface.

The purpose of the author who writes about sex problems is, first, to get money, and, second, to spend it.

The old maid has one companion. Man likes a woman dumb enough to make him seem bright by contrast.

If lack of water causes plants to turn yellow, we at last know how to cure the politician who answers questions on the question of prohibition.

Life grows more simple. One of the stranger's dialect affected your only means of guessing what section he hailed from now you can tell by his opinion of a bootlegger.

Correct this sentence: "Please eat butter and pickles and fancy crackers, my mother and dad," said the flapper. "But I prefer common, wholesome vi-

suals."

He who fights and runs away may win in the long run.

Some wives have to work while others work their husbands.

Some men hitch their wives to a star; others tie up with a movie queen.

Living the simple life is always attractive—to those who don't have to live it.

Marriage is always romantic, until you are married.

Even the man with the most vivid imagination can't always stretch it far enough to make both ends meet.

A man's logic should be equipped with a life preserver. Otherwise it might be drowned by a woman's tears.

It takes a lot of drilling to be a good dentist.

## RIDDLES RHYMES Walt Disney

**THREATS**

When some one says, "The world's a frost, and I have lost enough, and all ambition I have lost to lead a life so sonor," we feel quite certain that he won't destroy himself.

Men who wildly threaten don't mean anything they say. A fellow who pulls up his career; and with rope or lethal blade; and with his friends appear astound ed and dismayed.

The last man on this earth to pull that trick," they say; "a fellow bubbling o'er with mirth, who seemed to have no care.

At times I've made some enemies, who wished that were dead, and they compassed me to a cheese, and vowed they'd punch my head.

Friends town, and hide in a dark cave, until those fellows simmer down, and peacefully have.

For they have come by Mike and Pete, they're also here, or bruise his head. They pursued my joyous way, and filled the air with song, and passed just long enough to All the mentioned men live long, I know full well if some one means to dislodge my nose, and will my treasured dish of beans, and tread upon my toe, he won't give warning here and there, or bruise his head.

## MY MURDER VICTIMS NAMED

James Faces Trial for Burning of Infant

Will Ask Penalty of Death for Mother

Women Selected on Court Panel

SHE'S CHARGED WITH BURNING BABY ALIVE

## ENTRAPPED DRY EVADER DISMISSED

Court Denounces Officers Who Encourage Violation to Effect Arrests

Denouncing the entrapment of citizens by officers who persuade them to violate the law, Superior Judge Agger yesterday dismissed a charge of violation of probation against John George Taylor, colored.

It was charged that Taylor had sold a quart of liquor to two men who had obtained rooms in a court where he was employed as a janitor. At the time, the prosecution asserted, Taylor was at liberty under probation and had saved \$600 in regular bank checks which he had issued a year ago without sufficient funds.

The defense contended that the officers had rented rooms in the court and gained the good graces of Taylor, officers' informant tips. Then they asked him to buy them liquor. Taylor asserted he told them he did not know where to get it, but, finally, after the officers had insisted that he find liquor, he bought a bottle of beer and returned with a quart of whisky. He was arrested, charged with violation of probation.

## PADRE WILL PARTICIPATE IN JUBILEE

Mass Given Day of City's Founding to be Repeated at Celebration Next Week

Father Pujol, padre of the old Plaza Church of Los Angeles, will repeat the mass which was given on the day the city was founded on September 4, 1781, at the celebration of the city's anniversary which will be marked with a pageant and fiesta at the Plaza next Wednesday.

According to the State's charges, Mrs. Valenti, dressed and draped her baby, placed him in his carriage and then set fire to the blankets which surrounded him, walking away to converse with relatives while the flames quickly extinguished the life of her helpless baby. Hatred of her husband, Valenti, was the motive. The State asserts acerbated Mrs. Valenti in the asserted murder of her son.

Among the State's principal witnesses will be 10-year-old Esther Garcia, of 683 Moulton street. Through her Dep. Dist. Atty., Mr. Miller, hopes to establish that Miss Valenti fired her baby's carriage with matches. The girl was in court yesterday prepared to take the witness stand. Penney stated he also expects to call Rosa Valenti and her mother, Mrs. Valenti, and sister-in-law, Mrs. Yester, the defendant, as prosecution witnesses. They reside in a house on the same lot as that which was occupied by the defendant, her husband and baby.

## Abatement of Hotel Sought

Suit was filed yesterday in the United States District Court by Mr. Valenti, owner of the Hotel Christensen and William Valenti again will go on her additional plea of insanity. Her case will not be raised in this present case, although the trial will pass on the question of whether she is capable of being tried with the insanity plea.

Others mentioned in the suit which is of a civil nature, are Mick Valenti, widow of the deceased, John G. Alexakis and John G. Canaris, said to be managers, and Clarence Worthington, a clerk. It is asserted that during the past several purchases of liquor were made at the place by Federal dry agents.

## PHYSICIAN ADDED TO AIR COMPANY'S STAFF

Addition of Dr. John L. Lavan of Kansas City to the medical staff of the Universal Aviation Corporation was announced yesterday by L. O. Kennedy, western traffic representative. Dr. Lavan has been retained as senior doctor. He is the chief flight surgeon. Appointed to look after the physical welfare of pilots and mechanics and the general hygiene of shops, depots, hangars and fields, the medical staff was the first to be installed by an aviation transport concern.

## DINING CAR FRUIT PRICE CUTS URGED

PHYSICIAN ADDED TO AIR COMPANY'S STAFF

Jobbers' Association Chief, Here on Survey, Tells of Parleys With Railroads

The consumption of fruits and vegetables by the traveling public would be greatly increased if the railroads operating dining cars would cease to charge exorbitant prices for them, asserted William Garritt, secretary and business manager of the Western Fruit Jobbers' Association, at the Biltmore yesterday. Mr. Garritt, accompanied by J. R. Baldwin, president, is here from Chicago on a survey of American fruit-producing areas.

The association, Mr. Garritt said, is conducting negotiations with the presidents of the various railroads of the country with a view to obtaining a stabilization of prices on dining cars for fruit, fruit juices and vegetables. His replies already received, Mr. Garritt said, there is every indication that the railroads will co-operate.

"It is our aim to get the fruit and vegetable service in dining cars down to a standard price of 25 cents for an order of sliced grapes or a side dish of vegetable," he said. "Because of exorbitant prices charged for these products on dining cars consumption of fruits and vegetables by travelers is falling off alarmingly."

Garritt and Baldwin will remain here several days, surveying the fruit-producing centers and visiting jobbers, after which they plan to visit the apple section of the Northwest.

## EXPANSION AT HARBOR INITIATED

Commission Makes Lease to Company for Extensive Copra Industry

By a unanimous vote the Harbor Commission yesterday canceled the temporary lease of the Banning Company on vacant harbor land back of Berth No. 187, and granted it to the Pacific Coast Vegetable Oil Products Company for an extensive expansion program that it has had in contemplation for some time.

Byron M. Pattison, president of the company, stated that new machinery has been ordered and plans for new buildings have been made to crush additional copra and seeds brought from distant parts of the world. He said arrangements have been made for heavy shipments of copra from Manila to enlarge the output of the company which has been operating at Berth 187 since 1921.

An application by the Los Angeles Manufacturing Company of 2500 East Twenty-third street for lease of 250 feet frontage with a depth of from 250 to 500 feet, adjoining deep water, a highway and rail service, for construction of a small steel boat-building plant, was referred to General Manager Edwards for investigation.

## CIVIC SERVANTS PENSIONED OFF

City Commission Approves Four Retirements

Deputy Chief Spellman and Mrs. Gilbert Step Down

Patrolman and Captain of Detectives Also Named

Approval has been given by the City Pension Commission of the retirements of two well-known members of the Los Angeles Police Department whose combined service represented a total of almost fifty years. One is Deputy W. L. (Pinky) Spellman, who has served on the department for twenty-four years, and the other is Aletha Gilbert, City Clerk, who first became connected with the department on Sept. 19, 1904.

The retirement of Mrs. Gilbert, which became effective on the 27th instant, was on account of a fall or injury to her knee, which confined her to her home for a considerable period after she had been treated in a hospital. Appointment of her successor, which has not yet been made, will be submitted to Chief of Police Davis, subject to approval of the Police Commission.

The retirement of Deputy Chief Spellman is effective Sept. 1. His application for retirement came up before the Police Commission yesterday and was referred to the Pension Commission without being read. He is one of the two deputy chiefs. The other is Deputy Chief Lyons. Chief of Police Davis will be required to select a successor to Spellman subject to the approval of the Police Commission.

Three names in the eligible list for deputy chief will be certified by the Civil Service Commission for the appointment. They will include Captain of Detectives, Bruno B. Cross, Inspector of Detectives Dwight W. Longuevan and Captain of Detectives William Cahill, who stand in that order at the head of the eligible list. Davis said he was not able to announce which of the three would be selected for the appointment.

The Pension Board also has granted retirement pensions to Captain of Detectives Frank C. Conroy, who has served twenty years and whose retirement becomes effective Sept. 1, and Patrolman John M. Level, with twenty years service, whose retirement also will take effect Sept. 1.

The consumption of fruits and vegetables by the traveling public would be greatly increased if the railroads operating dining cars would cease to charge exorbitant prices for them, asserted William Garritt, secretary and business manager of the Western Fruit Jobbers' Association, at the Biltmore yesterday. Mr. Garritt, accompanied by J. R. Baldwin, president, is here from Chicago on a survey of American fruit-producing areas.

The association, Mr. Garritt said, is conducting negotiations with the presidents of the various railroads of the country with a view to obtaining a stabilization of prices on dining cars for fruit, fruit juices and vegetables. His replies already received, Mr. Garritt said, there is every indication that the railroads will co-operate.

"It is our aim to get the fruit and vegetable service in dining cars down to a standard price of 25 cents for an order of sliced grapes or a side dish of vegetable," he said. "Because of exorbitant prices charged for these products on dining cars consumption of fruits and vegetables by travelers is falling off alarmingly."

Garritt and Baldwin will remain here several days, surveying the fruit-producing centers and visiting jobbers, after which they plan to visit the apple section of the Northwest.

## FULLER RITES TOMORROW

Los Angeles Pioneer, Who Was Active in Business for Fifty Years, Will Rest in Hollywood

Last rites for Charles Henry Fuller, pioneer resident of Southern California, who played an active part in its development during the past half-century, will be conducted tomorrow at 10 a.m. from the W. A. Brown chapel, 1815 South Flower street. Burial will follow at Hollywood Cemetery and Suburban Delivery Company, which did hauling for local department stores. At this time they acquired a ranch of several thousand acres at Corona, where they raised horses for their business and in time developed into one of the finest stock-raising ranches in California. Subsequently they purchased properties in Arizona, Mexico, Imperial Valley and Santa Barbara county, and for many years were among the largest breeders of live stock in the State.

Mr. Fuller, who died on Tuesday, was 70 years of age, and had been actively engaged in the business and civic life of Los Angeles and surrounding country until the last few years when ill health made it necessary for him to relinquish these duties.

Mr. Fuller was born at Mt. Pleasant, Iowa, and spent his boyhood days there on a farm. When he was 22 years of age, he came west with his family and settled near what is now the town of Azusa, where he planted one of the first orange groves in Southern California.

Several years later he moved to Los Angeles and became a partner in the Motor Transit and Auburn Fuller companies, and a sister, Mrs. Mary D. Zucker, all of this city; another sister, Mrs. Arthur M. Brown of Pasadena, and a brother, R. P. Fuller of El Paso, Tex.

Mr. Fuller leaves his mother, who is 87; his widow, Mrs. Mary Fuller; a son, O. R. Fuller, president of the Motor Transit and Auburn

Fuller companies, and a daughter, Mrs. Mary D. Zucker, all of this city; another sister, Mrs. Arthur M. Brown of Pasadena, and a brother, R. P. Fuller of El Paso, Tex.

## COUNTY FINDS 'PAUPERS' LONG SUPPORTED RICH

After long being supported by Los Angeles county as paupers, Mrs. Sarah Johnstone, 87 years of age, and her daughter Florence, 44, will be relieved by the County Counsel's office to recover amounts spent by the outdoor relief department for their support.

Mrs. Johnstone has been confined to a rest home and Miss Johnstone is paroled to Mrs. Genevieve Dodge, county psychopathic officer. When it became necessary to file an incompetency proceeding against Mrs. Johnstone, Dodge, who is 70, decided her no longer able to draw and spend the money due her from the county, Attorney G. C. Watson, requested to draw the papers, discovered that Mrs. Johnstone had

among her effects bank books showing

## Freckle-Off Special Period Till Tonight

**Takes 'em off—keeps 'em off.** Get a jar of this wonderful cream as a powder or liquid, and get rid of freckles or the misery of a jar with your skin. You will have a better time. Freckles are gone at night, and the skin is smooth. This gives you only real Freckle-off jar base when going by telephone. The wonderful cream has been used by thousands of women to keep skin clear and smooth. Get a jar today, and accept no FRECKLE-OFF substitute. (The deep freckles are strong, \$6.00 and \$10.00 extra.) \$1.00 size only.—(Advertisement)

## THE BEASTS OF TARZAN

By Edgar Rice Burroughs

His first need was for fire. He cut a small straight branch and scooped a small round hole in the trampled mud told him many animals came down to drink. Hither, at dusk, the hungry ape-man made his silent way, swinging through the tree branches with the grace and ease of a panther. But from the depths upon his heart he would have been happy in this return to the old, free life of his boyhood.

Next he sought for a sharp, broken rock. From this glass-like material he patiently fashioned a primitive hunting knife.

He had noted in the forest a spot where tracks in the trampled mud told him many animals came down to drink. Hither, at dusk, the hungry ape-man made his silent way, swinging through the tree branches with the grace and ease of a panther. But from the depths upon his heart he would have been happy in this return to the old, free life of his boyhood.

Next he sought for a sharp, broken rock. From this glass-like material he patiently fashioned a primitive hunting knife.

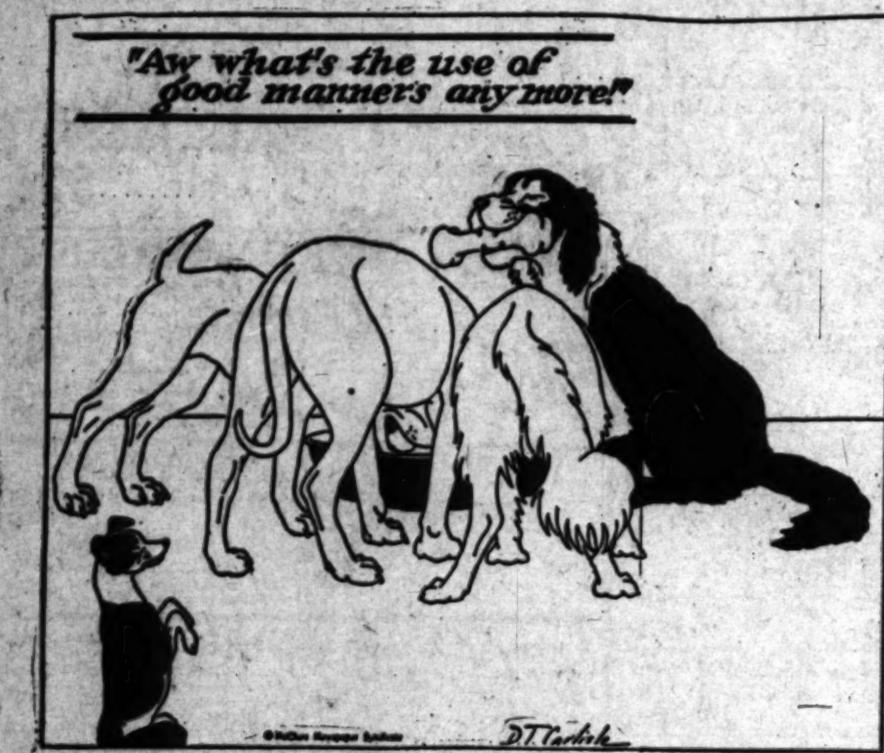

In a great tree that overhung the trail, his little muscles were drawn up ready to spring. Tarzan leaped over the mud to the "dinner" tree. Presently Tars, the deer, came daintily down to drink. But more than Tars was coming! Behind the graceful buck came another which the deer could neither see nor hear. But from his elevated position the ape-man saw Numa, the lion.

## CEMETERY VISITS DESCRIBED AT TRIAL

### BETTY LAWFORD IN LASKY LEAD

*Lupe Velez Goes South to Star in Inspiration Film;  
Joe Brown Plays Circus Clown for Tiffany-Stahl;  
Roland Young Featured in M.-G.-M. Talker*

BY GRACE KINGSLY

If Betty Lawford ever comes to Hollywood, she will be assured of a large greeting, both from the profession and from the public, which she is winning with her picture characterizations.

In the meantime, we must be content with the celluloid double, since she continues to work in New York, with Paramount, having just completed the leading feminine role in "The Return of Sherlock Holmes."

But the young actress will lose her position because Paramount yesterday assigned her to the important role of the heroine in "The Big Pond," adapted from the Midleton-Thomas play, opposite Charles Ruggles.

Miss Lawford is the daughter of the distinguished English actress of West End, and can boast of several generations of stage actors in her ancestry. She was graduated to the speaking screen from the New York stage, her first role in the talkies being in "Gentlemen of the Press."

Robert Henley is to direct "The Big Pond" at the Astoria studios of Paramount.

**LUPE VELEZ WILL**

#### WORK IN FLORIDA

That vivacious young actress Lupe Velez, is to desert Hollywood in the interests of art. She will go to Florida.

It was learned yesterday that Miss Velez is to star in a new exploitation talking picture, to be directed by Henry King.

The title of the production is "The Story of a Bachelor," and the feature is to be made in and around Tampa, Fla. Miss Velez is looking forward to her first trip south with concentrated animation. She is leaving within a couple of weeks.

**JOE E. BROWN**

#### RODOLPHO'S NEXT TIFFANY

In case you've been wondering what has become of Joe E. Brown, we are pleased to let you know that he is well.

He has been re-hearing and getting ready for his next starring vehicle for Tiffany-Stahl, namely, "Painted Faces," with a circus setting.

Al Roselli is to direct "Painted Faces" and Helen Foster, according to present plans, will be Brown's leading lady.

Brown is eminently fitted for this circus role. He was a circus performer during his boyhood when he was 4 years of age. He became a trapeze performer and a clown, and was a member of the Five Famous Ashtons, circus athletes. He later went on the stage and earned fame and fortune in vaudeville and musical comedy. Of late he has been devoting his talents to talking pictures.

**T. HAYES HUNTER WITH SONS-ART**

T. Hayes Hunter, who gave us the two years ago to go to England

to study acting, has now returned to America to continue his studies.

Following the dedication ceremony the first services will be conducted by Rev. J. C. Nichols, pastored largely by persons affiliated with the motion-picture industry.

Officers of Temple Israel are Sol M. Wurtzel, president; John Stone, secretary, and I. B. Chadwick, chairman of the board.

**HUSBAND SAYS WIFE  
IGNORED HIS GENIUS**

Robert M. Angier time and again testified that his wife, Lillie B. Angier, that she was his mental inferior and did not appreciate his genius, she told Superior Judge Weyant and when grand jury diversity, Mrs. Angier again accused her husband of associating with other women.

**LIKE OCEAN STEAMER**

Mr. Shiral explained that his contract with Sons-Art was terminated because he had given the company a great deal of trouble.

"The case of the flight of the Zeppelin was apparent when we were over the Pacific away to the north and turned south to avoid the storm on the northern route. That was the reason we did not go over Seattle," he said. "We have a good record and our passengers will be safe."

New mail and passenger routes will be opened from the Japanese capital to Chosen, Mr. Shiral said, and in the development of their air mail and passenger service the Japanese authorities are taking the European and American lines as their model.

The Japanese correspondent is the first newspaper man who has written extensively on the subject. The story of the growth of American aviation and a description of the American customs and people somewhat along the lines of the stories of Fred Hogue, Times staff representative, now in Asia.

**GOES TO WASHINGTON**

His only impressions thus far are those of his trip over the Pacific on the Zeppelin, the cruise down

Benjamin King

said, and to the expiration of that time aided Dr. Westlake to remove his personal belongings to the doctor's home.

When the bones, identified in court

as belonging to Mrs. Sutton, were

**PUGILIST FREED IN DEATH CASE****Bennett Killed Accidentally, Judge Decides****James Says He'll Never Touch Liquor Again****Shooting Occurs at Party in Rooming-house**

Walter Charles Bennett was killed on the afternoon of May 31, last, in a rooming-house at 625 South Steel street by a shot accidentally fired from a revolver in the hands of his best friend, Alexander H. James, local boxer. Superior Judge Needham yesterday held at the close of the trial of the young man who was before him charged with

The W. C. T. U. Chapter,  
of the Women's Christian  
Union, has appointed  
the following officers:  
President, Mrs. E. C. Pritchard;  
Vice President, Mrs. G. L. Lovell;  
Secretary, Mrs. M. C. Lovell;  
Treasurer, Mrs. M. C. Lovell;  
Lecturer, Mrs. M. C. Lovell;  
Chairman of Finance, Mrs. M. C. Lovell;

Following the acquittal of young James, his wife and Mrs. Bennett met in the office of Attorney Hill. Mrs. Bennett was deeply affected by the outcome of the trial. Both tears in her eyes, she decided that it is evident that James is a friend who bears no hard feelings. She reiterated that she is of the belief the shooting was purely accidental.

The first complaint lodged against James was one of murder. When the case was called for trial the court remanded it to Manhattan Beach with the words "without malice" inserted.

James wept bitterly on the witness stand.

**"REMEDY" MAKER GUILTY**

John S. Peterson of 426 South Main street was convicted by a jury in Municipal Judge Sheldon's court yesterday of five counts of misbranding and mislabeling medicine, following testimony by Superior Judge August Glavis that the "cold-preventing remedy" sold by Peterson for mannaugher. He was therefore acquitted.

Following the decision of the court, Peterson jumped from the two embrasures, with Mrs. James sobbing in her husband's arms. He was affectionately greeted by Mrs. Miriam Bennett, 1884 North Spanish Avenue, whose son, James, was shot, who took the witness stand in his behalf and declared she is sure the shooting was accidental.

**GUN THOUGHT KILLED**

Evidence was adduced during the trial that the shooting occurred while Bennett and James were present at a gin-drinking party and that all were of the belief that the gun which caused the accident was not loaded. James had been drinking, but was not intoxicated, witnesses declared.

"If I ever take another drink of liquor I hope it strikes me blind," the defendant cried when acquitted.

Although the quick acquittal of the court was entirely in favor of young James, he was guilty of manslaughter, the court took occasion to condemn him strongly for being present at a drinking party and for the use of liquor. The court said some portion of public should be meted out for this phase of the matter.

**NO MORE LIQUOR**

However, both John J. Hill, deputy Public Defender, who represented James in court, and Dep. Dist.-Atty. McKay, who handled the State's side of the case, promised to keep a check on the defendant and endeavor to see that he later does not drink again.

The Western Air Express plane, piloted by R. M. Shelton, delayed its departure from Salt Lake City because of engine trouble, the arrival of Los Angeles from Missouri. Meanwhile the mail was transferred to another of the company's planes to insure its arrival in Los Angeles on schedule.

Prior to visiting his relatives, Longyear had completed a summer course in engineering at the University of Minnesota. He was accompanied on his trip to Los Angeles by his brother Clyde and Dr. Am. Willard of Missouri.

James wept bitterly on the witness stand.

The W. C. T. U. Chapter, of the Women's Christian Union, has appointed the following officers:

President, Mrs. E. C. Pritchard; Vice President, Mrs. G. L. Lovell; Secretary, Mrs. M. C. Lovell; Treasurer, Mrs. M. C. Lovell; Lecturer, Mrs. M. C. Lovell; Chairman of Finance, Mrs. M. C. Lovell;

# Al Singer and Kid Chocolate Clash in First "Natural" of Outdoor Season Tonight

## POLO GROUNDS SITE OF SCRAP

Jewish Boy Rules Favorite Among Bettors

Huge Wagers Reported from Rival Supporters

Promoters Expect Crowd of 50,000 Spectators

**NEW YORK.** Aug. 26. (P.)—Two sparkling kids, without a title between them, but packed with the stuff of which champions are made, will all but fill the spacious Polo Grounds tomorrow night for the first "natural" of the outdoor fight season.

One is Al Singer, deadly launching Jewish boy from the Bronx, who knocked out Andy Minotic, the featherweight titleholder, in his last important match. The other is the ebony wogon from Havana, the dusky Kid Chocolate. They are scheduled to box twelve rounds at 2-3-4 pounds.

For a full year the paths of this pair have crossed and cleared the way for one to continue on to title heights. Chocolate has fought each of his 154 matches without a defeat either close to or below the bantamweight limit of 116 pounds. Singer, however, is a full-fledged 120-pounder, good for the middleweight class. The weight difference hillocks has kept them apart.

Arguments as to their respective fighting abilities have been bitter and long-drawn-out for many months. Both had a tremendous local following. Wearing on the chin is believed to have reached \$200,000 with Singer a bit favored at 7 to 5. So heavy has been the demand for parking space within the big National League ball park that a crowd of 50,000 probably will pay \$200,000 or more to see the battle.

## AMATEUR KING REGISTERS '70"

(Continued from Eleventh Page) when officials questioned his amateur status because of his employment as a salesman for a golf-ball concern.

Jones and Tolley defeated Brown and Jones in today's practice round, 4 and 2.

The foursome comprised four of the longest hitters in the game. Tolley hit the longest balls consistently today, although young Flory tore off occasional smashes that far exceeded those of his partner.

Both amateurs agreed to meet again with Tolley or Flory and Brown was off on his drives. Although a little off his at the beginning of today's round, Jones' famous putter, "Calamity Jane," which has been erratic on the Pebble Beach green, was the champion despite the fact that he missed one putt on six greens.

Tomorrow morning Jones and Francis Culmer, Henry Lapham of Boston and Roger D. Leapham, president of the California Golf Association, will play the Cypress Point course.

Following the foursomes of Bobby Jones, George Voigt of New York, turned the first nine in 36, one stroke under par, and finished the second in even par, 36. Three birdies marked his card, but on the ninth and 18th holes he missed easy putts for pars.

The New Yorker turned the Pebble Beach course the finest sheet of gulf of any course selected for the amateur championship. He played his first round on the links yesterday and earned 77.

Harry Michelberger of Los Angeles and John Dawson of Chicago reported 77's for their practice rounds, while George Von Elm regarded as the most serious contender for the 72nd crown, dropped four strokes to par for a 70.

Roger Flory, the amateur, found the second nine his stumbling block and took 41 strokes coming in, after shooting the first nine in even par, 36. It was his first round on the course.

## CARTER HERE FOR HESS TILT

(Continued from Eleventh Page) in San Francisco and will arrive here some time today.

Tony Portillo and Ritchie King were matched to box eight rounds on the semi of the Hess-Carter bout.

**MAIER DEFEATS PETERSON**

**MILWAUKEE.** Aug. 26. (P.)—Dave Maier, Milwaukee, knocked out Bill Peterson, Detroit, in the first round of their ten-round bout here tonight.

**HEINTZ HILL LOSES BOUT**

**OAKLAND.** Aug. 26. (P.)—Jack Linnhorne, promising Modesto heavyweight, won a decision over Benny Hill of Fresno, tonight in a slasher six-round fight that was a toe-to-toe slugfest match from the start.

**SOUTHLAND YACHTS WIN IN NORTH**

**Local Seamen Score Three Victories; Seem Destined to Walk Off With Major Portion of Regatta Prizes; Amorila, Pandora and Highlander Triumph**

**SAN FRANCISCO.** Aug. 26. (P.)—Southern yachts under a spanking wind again carried off honors to stay in the fourth day of competition in the Pacific Coast championship regatta on San Francisco Bay. Concentrating on the larger racing, the southerners put over classes more numerous than ever destined to walk off with the major share of the regatta championships.

Two of the winners, A. N. Kemp's schooner Amerilla, and A. H. Roth's graceful sloop Pandora, are from the California Yacht Club of Los Angeles. The third winner from Los Angeles to win today is Al Christie's schooner Highlander.

Aided by a handicap of 13.6, the Amerilla for the second time took the measure of the Pointsmen, palatial yawl, owned by Walter C. Hall of Los Angeles. Although the Pointsmen crossed the line nearly eight minutes before the Amerilla, the handicap of the latter gave it the victory. The Diablo, sailed by W. W. Pedlar of Los Angeles, finished third over the fourteen-mile

## Bobby Chips With a Wee Wrist Stroke

## STECHER OPENS TRAINING CAMP

Scissors King Starts Work for Lewis Clash

**JOE STECHER**, the Dodge (Neb.) body-scissors exponent, who is scheduled to clash with Ed (Stranger) Lewis in a finish match at the Olympic Wednesday night, went into heavy training at Long Beach yesterday.

Although he has lined up three bruising heavyweights who are able to give him a sample of the punishment Lewis usually deals out to his opponents, Stecher does all of his more important training with his brother-manager, Anton, a great middleweight grappler, before Joe begins.

One of the first changes in Stecher's method of wrestling Lewis is that Anton schedules for this match was that the scissors expert develop a defense and counter-offense against Lewis's head-crushing grip, instead of trying to beat it as in the past, simply by evading.

Such a combination to use against the headlock has already been worked out by Anton and Joe, and they practiced it for more than an hour yesterday. The Stechers are making no attempts to keep the defense and counter-offense a secret. By applying leverage in the right place Stecher believes he could cut the headlock if Lewis comes behind his foe. His counter-hold then, it is reported, is to leap upon his opponent's back and clamp on a hook body scissors and a face twisting headlock.

It's just a little wrist stroke, firmly played, this chip of Jones' fingers. Let me know when he is ready to go to the top of the heap after the contest has been played.

That Schmeling is just a good stevedore fighter.

So Mr. Johnson, who is considered in Broadway circles of New York as a great manipulator, says he has the only outstanding heavyweight division.

He says Mr. Scott is not a dynamic fighter like some other heavyweights who have gone before, but that he can box and he can punch fairly well.

In fact Mr. Johnson even says that the reason Schmeling refused to go through with the Scott bout for Promoter Fugazy was because the German had seen Scott fight twice on the other side.

Broadway's "Boy Bandit" alleges that is the real lowdown on the affair, and he has no sympathy for the Measles. Joe Jacobs, Billy McFarney, et al., who were suspended along with their fighters because of the rumpus.

**ARMY POLO PLAYERS TO FACE UPLIFTERS' SQUAD**

(Continued from Eleventh Page)

Four Eleventh Cavalry horsemen using polo mallets instead of their feet to square the match last but let down the fifth set when Farquharson lost his service, a break which gave the visitors the victory by scores of 6-1, 6-2, 3-6, 2-4, 7-5.

George M. Lott, Jr., of Chicago and John C. Jones, Jr., of Atlanta, the two new players, were the best of the team.

The Cavalry, however, had a

stronger team.

# Modern Mothers— happy healthy babies

To modern mothers... homemakers who know that careful selection of food is the greatest factor in the making of healthy, happy children... Arden Sanitary Gold Seal Farms now bring a Protected milk service.

#### Who Arden Is

This new home service was made possible by the joining together of a group of leading creameries... Crescent, Sanitary Gold Seal, and California Cooperative Creamery... with the famous Arden Certified Dairy Farm.

Under the new name... Arden Sanitary Gold Seal Farms, Inc... this fine new organization will now bring to your doorstep not only the famous Arden Certified Milk, but also the new Arden Gold Seal Protected Milk.

#### From Selected Cows

The famous Arden Certified Dairy Farm at El Monte... oldest Certified Dairy Farm in California... will be owned and operated by the new organization to produce only Arden Certified milk for its customers. From other selected dairy farms throughout Southern California will come the new Arden Sanitary Gold Seal Protected Milk... an extra rich pasteurized milk, produced and distributed under the most rigid, modern, sanitary requirements... Protected 27 important ways from the selected cows which produce the milk right to your own doorstep.

#### Through Model Creameries

The new Arden organization has brought together a group of the most modern creamery plants in the West. Hundreds of thousands of dollars have been spent to perfect and install the most modern sanitary devices known to the

milk industry. And it has now made it possible to bring to your home this Protected Milk... a new extra rich milk... with more cream... double capped... richer in butterfat.

#### What Arden Gold Seal Protection Means

Protected by the care and frequent examination of the selected cows which produce it.

Protected in the diet of the herds.

Protected by being quickly cooled at the farms after milking.

Protected by medical examination of employees connected with its production and delivery.

Protected by perfect pasteurization.

Protected by being bottled automatically... and by being double capped so that no hand can touch the bottle top.

Protected by the sterilization, steam washing, and careful inspection of all bottles.

Protected 27 Important Ways covering every step from the scientific feeding of the selected cows to the delivery of the double capped bottles to your kitchen door.

#### Try This New Milk

Just try the new Arden Gold Seal Protected Milk. Note the protecting double cap... watch the deeper cream line... notice how much thicker and richer the cream is. Added health giving qualities for your children and grown ups. Phone now and try it! Just give the Arden Gold Seal Order Girl your address... your Arden Gold Seal Milkman will call tomorrow.

#### SLAYER FIGHTS FOR INSURANCE

Named as Beneficiary by  
Wife He Killed

Lawyer Opposes Payment to  
Convicted Man

Court Will Decide Where  
Money Shall Go

Whether William B. McLane, convicted of manslaughter in connection with the death of his wife, Ada McLane, is entitled to collect her insurance, amounting to \$107,111, is the question confronting Superior Judge Tappan in the brought by the American Life Insurance Company against the husband and Attorney Joseph Mayer, administrator of the dead woman's estate. Judge Tappan yesterday took his decision under advisement.

McLane, who stabbed his wife, is now serving a term in San Quentin. At the time of the wife's death she was carrying a \$1000 life insurance policy which, with dividends and interest, now totals \$107,111.

On the death of Mrs. McLane a dispute arose between the husband and Attorney Mayer, the administrator of her estate, Mayer asserting that under the law the husband, although named as the beneficiary in the policy, was not entitled to the insurance because he had committed manslaughter.

Cohen, who still is confined in San Quentin, has been granted a parole to go to trial tomorrow in Superior Court on the charge of illegal possession of firearms.

He was arrested at his South Robert Boulevard residence recently by police officers and investigators for the district attorney's office. The officers assert they found a quantity of narcotics in a secret room, a supply of liquor and two revolvers from which all identification marks had been removed.

Cohen, who still is confined in San Quentin, has been granted a parole to go to trial tomorrow in Superior Court on the charge of illegal possession of firearms.

The insurance company promptly paid the money into the court where it remains and will remain until Judge Tappan gives his decision as to whom it is to be paid.

At the same time the company filed the action asking the court to determine who is to get the money.

#### Radio Dealer Held for Theft

Asserted to have obtained \$12,000 through the sale of supposedly bogus radio contracts, Lawrence W. Rice, 38 years of age, retail radio dealer of 2077 Wilshire Boulevard, Los Angeles, was arrested by Detectives Crowley and Penner and charged with grand theft.

The victim, according to the detectives, is A. J. Schatzel a broker, of 1840 Brasbury Road, Pasadena. Schatzel complained, the detectives reported, that after purchasing several radio contracts from Rice, he gave the latter the above amount for other contracts which he asserts were fictitious.

#### FITZGERALD FUNERAL SERVICE TO BE TODAY

Funeral rites for Thomas Stevens Fitzgerald, Occidental College graduate, who was accidentally killed near Victorville Monday, will be conducted at 4 p.m. today at St. Stephen's Episcopal Church in Hollywood. Rev. Charles P. Kemper, rector of the church, will officiate. Interment will be at Forest Lawn Memorial Park. Mr. Fitzgerald, who was 23 years of age, was employed as a civil engineer by the Dillon-Bowles Construction Company. He was a member of the A. Y. O. Fraternal. He leaves his wife, Mr. and Mrs. Michael E. Fitzgerald, and three sisters, Mrs. Jeannette Bab, Mrs. W. Ray Weber and Mrs. Harold D. Searies.

#### MRS. WARD'S FUNERAL CONDUCTED YESTERDAY

Last rites for Mrs. Leah A. Ward, for many years connected with the May Company, and well-known in the Fairview Heights section of Los Angeles, were conducted yesterday at the Hammond & Mississauga Chapel, 3511 Hill Park Boulevard. Rev. G. McElroy, pastor of the Chesterfield Square Methodist Church, on Fifty-fourth street, of which church Mrs. Ward was for a number of years a member, officiated. Interment was made in Inglewood Park Cemetery. Mrs. Ward lived until five years ago at 802 Brookside Street, Inglewood. She died last Sunday in a Los Angeles hospital, at 81 years of age.

The two composers, whose song titles have become popular over night in movie theaters and talking productions, will file articles of incorporation within a short time. The preliminaries for the organization of the company now are in the hands of their attorneys.

The two men are Americans and first gained prominence in the song field when they wrote "When Buddies Smile." Brown is the writer of "The Dell Dance" and together with Freed wrote a majority of the songs in his "The Golden Melody" and other M-G-M pictures.

#### COHEN MAY FACE ADDED ACCUSATION

Fitts Calls Grand Jury in  
Special Session to Lay New  
Facts Before it

Calling a special session of the Los Angeles county grand jury, which was not scheduled to meet until September 6, Dist.-Atty. Fitts yesterday announced that he will lay additional facts before the inquisitorial body today setting an indictment against Hyacinth Cohen, asserted narcotics ring leader. The District Attorney declined to disclose the nature of the contemplated charges.

Cohen stands to face charges of violation of the State Narcotic Act and illegal possession of two guns with the identification numbers filed off. The total bill on these two guns originally was set at \$600. The defense attorney obtained an order from the Appellate Court reducing the bill to \$25,000.

He was arrested at his South Robert Boulevard residence recently by police officers and investigators for the district attorney's office.

The officers assert they found a quantity of narcotics in a secret room, a supply of liquor and two revolvers from which all identification marks had been removed.

Cohen, who still is confined in San Quentin, has been granted a parole to go to trial tomorrow in Superior Court on the charge of illegal possession of firearms.

On the death of Mrs. McLane a dispute arose between the husband and Attorney Mayer, the administrator of her estate, Mayer asserting that under the law the husband, although named as the beneficiary in the policy, was not entitled to the insurance because he had committed manslaughter.

The victim, according to the detectives, is A. J. Schatzel a broker, of 1840 Brasbury Road, Pasadena. Schatzel complained, the detectives reported, that after purchasing several radio contracts from Rice, he gave the latter the above amount for other contracts which he asserts were fictitious.

The insurance company promptly paid the money into the court where it remains and will remain until Judge Tappan gives his decision as to whom it is to be paid.

At the same time the company filed the action asking the court to determine who is to get the money.
